## « Bamboo Pavilion 3D Print »

6x9x5 m

- **Design Concept Statement** (6x9x5mts)
- **Video** : ,,,,,,,<https://youtu.be/FEX79adoQG8>
- The proposal is an idea, seeing the Constant and new development of the Materials, a 3D impression and in 1:1 scale.
- (**Bamboo** has already begun to be implemented, as a Material also to replace Plastics in 3D printing. Mixing Bamboo Paste, with other elements)
- Architecture, sometimes, copies Nature, & 3D Printing begins to copy the Architecture.
- If pigments or Emission possibilities will be added to the mixture-paste-of Bamboo, other possibilities would be obtained.
- That's here is one more idea, another possibilities of Bamboo
